FORWARD

Torah For Children is an organization committed to the success of Chinuch and Jewish Education of all Jewish children regardless of ability and background. Combining the expertise of master educators and top graphic artists, Torah For Children publishes visual and interactive curriculum and textbooks in the core textual subjects in Kodesh/Jewish Studies.

Torah For Children materials encompass all steps of the learning process and have done all the preparation for the teacher allowing the teachers to focus on teaching. Carefully prepared content engages students to master all skills while being infused with Fear of Heaven.

Torah For Children products are an ultimate inclusion tool stimulating the advanced learner and engaging the academically challenged through visual, live and active learning.

We have published a Kriah Series, the Children's Chumash, and the Visual Gemara. Seder Kriah was developed by kriah specialists that uses all contemporary reading methods embedded with structured kriah pages so that all students master kriah; a fundamental learning skill.

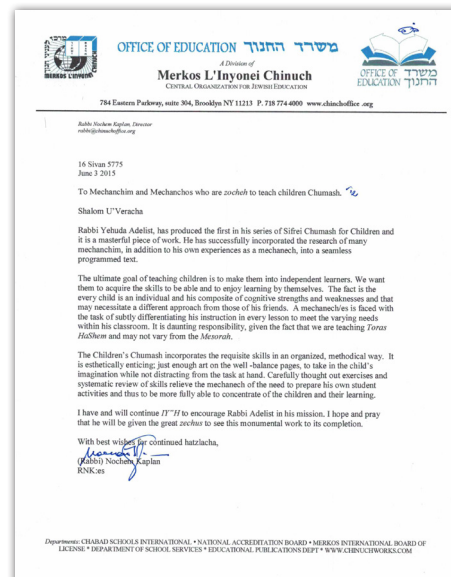

The Children's Chumash is state of the art; a comprehensive Chumash where children learn all skills necessary and use them to learn the Chumash, culminating in a living lesson. To date we have produced 2 levels (Bereishis - Lech Lecha and Vayeira - Vayeitzei) with more Parshiyos to come Bez"H.

The Visual Gemara is something unique in its visual presentation. Learning Gemara looks so easy and fun with unique charts and a wealth of pictures, and the Visual Introduction takes the appreciation of the mesorah and the understanding of Gemara to a whole new level.

B'Ezras Hashem we hope to increase more content and grade levels in the coming months and years.

WHAT PEOPLE ARE SAYING

"As a community day school we find the Children's Chumash to be a wonderful text based approach to learning Chumash without the fluff. The workbook focuses on building vocabulary using clever illustrations and has an engaging design. I recommend it highly and I can't wait until other parshas are out."

Rabbi Yitzchak Menda, Principal, Hebrew Academy Tidewater, Virginia

"Our students love the workbook. In addition to the steady build up of essential Chumash skills and vocabulary and the spectacular graphics, what stands out about the series is the 'Call to Action' section. This section brings home to the children that the Torah is alive and applicable in their personal lives today, just as it has been throughout the ages."

Rabbi Levi Milecki, Principal, Kesser Torah College Sydney, Australia

"This workbook addresses the many Chumash skills that a talmid must acquire in order to succeed in a unique comprehensive way. The graphics and artwork make Chumash stimulating and fun."

Once the daytime passes, it is too late to bring the קְרָבָן תְּמִיד or מִנְחָה (except the leftovers) as the day is over.

Introduction

מצות תפלה

וְעִבְדֶם אֶת ה' עִלְקִיבִים
And you shall serve Hashem with all your heart
 (שְׁמַחַת פֶּה בְּלִב פִּסּוּק י"ד)

The mitzvah of davening is really to daven to ה' every day in our own language. The Rambam instituted that we should daven parallel to the קְבוּצָה three times a day. Therefore if a person daven outside this time, he is still doing a מצוה, just not fulfilling the מצוה in the fullest way possible the way the קְבוּצָה set it up.

תפלה בזמן התקבנות

שמונה עשרה

מערב **מזרח** **שחרית**

and his רב instituted a standard text for davening and a set time parallel to the קְבוּצָה. This was a result of the fact that the children born after the exile grew up with a different language than their parents and they needed this special מצוה.

POWERFUL ILLUSTRATIONS

Illustrations bring the learning to life building textual comprehension and culminating the learning with a powerful lesson into real life.

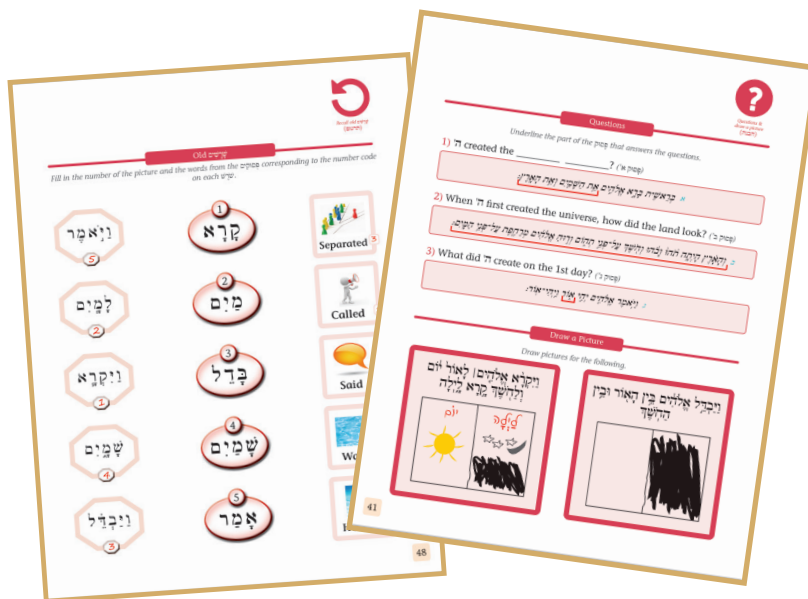

Linking picture to text is a great way to assess and build textual comprehension.

Living lessons in the form of a comic capture the main theme of every chapter and bring it to action.

CHILD FRIENDLY

Pages in the Children's Chumash are child friendly in graphics, color and art. Activities are presented small in quantity and big in size, with minimal writing allowing children to move swiftly through the pages. Comprehension prompts zone in on the details that otherwise get missed.

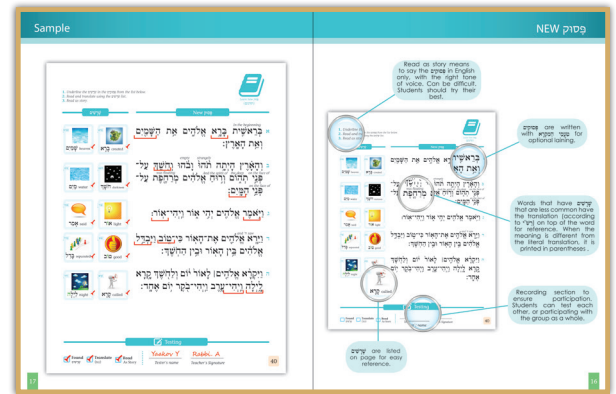

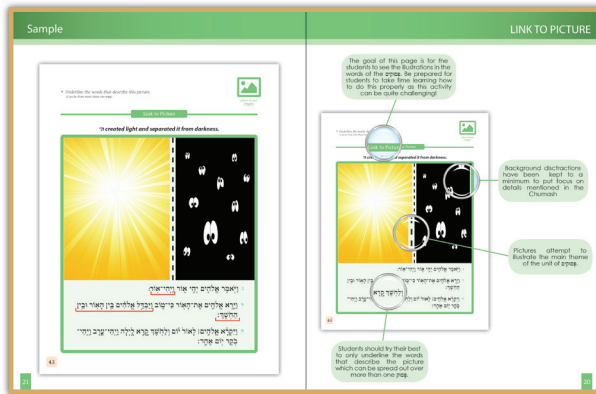

SPECIAL REVIEW SECTION

Guided review section trains children the technique of review and ensures retention.

INTERACTIVE TUTORIAL

Interactive tutorial helps educators understand how to use each page, and replaces the need for a teacher's guide with all activities being prepared and hands on.
